**RE: Whitemarsh Township – Land Development Application of Highway Materials, Inc.  
for “Creekside Commons”**

Dear Bill:

This letter will confirm my telephone call to you of March 24, 2010, which, of course, followed our lengthy conference with Judge Albright on the afternoon of March 23. Consistent with our discussions with Judge Albright, I would ask that Thursday night's public hearing on our land development plans be continued indefinitely to allow for an application to the Zoning Hearing Board to address zoning issues which are alleged to exist with regard to our plan. As you will remember from our conference with the Judge, we retain the right to argue that the issues raised are untimely, without merit or both.

Sincerely,

**JAMES J. GARRITY**

JJG/dmf
